Warranty Information

All CleverLCD Touch products are supplied with a three year return to base warranty included in the price. For complete peace of mind we recommend you upgrade to the on-site warranty, which covers all parts and labour over three years. Our in-house fully trained technicians will quickly diagnose any problem and choose the best option for repair, to ensure that equipment downtime is kept to a minimum. The on-site warranty is available for all models of CleverLCD Touch including *Plus* and *Fusion*.

OPTIONS AND ACCESSORIES

Your CleverLCD Touch Reseller

Sahara Presentation Systems Plc
Williams House, 61 Hailey Road, Erith, Kent DA18 4AA

Wall brackets

1550795 - A slim-line mount suitable for the 32/42/52" CleverLCD models. Sits only 70mm from the wall. For load-bearing walls only.

1550615 – A universal heavy duty bracket suitable for the 42/52/55" CleverLCD models including plus versions. For load-bearing walls only.

1540005 – Heavy duty wall mount for the 65" CleverLCD Touch Dual and Dual Plus. Specifically designed by the manufacturer for the extra weight of the larger unit, to reassure safety and suitability when installing on load-bearing walls.

Mechanical wall lifts

1540083/84– Mechanical wall lift for the 42/52/55/65" CleverLCD Touch models. Features spring loaded mechanism allowing featherlight touch to raise/lower the screen 500mm. Sleek design with attractive stainless steel finish. For load-bearing walls only.

1040075 – Sneeze wall lift. A unique mount that lets you alter the CleverLCD both vertically and horizontally for complete flexibility. Features electric display lift for ease of use. Ideal for group work and disabled student inclusion. For non load-bearing walls a column (1040076) must be used in addition to the wall lift.

Electrical wall and trolley lifts

1040073 – Electrical wall lift for all models of CleverLCD Touch. Power driven wall mounted lift with range of 750mm from base to maximum height. Very smooth and precise height adjustment thanks to precision stepper motor. Add 1040074, feet extension if fitting to non load-bearing wall.

1040068 – Mobile trolley for CleverLCD with electrically powered lift mechanism. Suitable for all models of the CleverLCD. Lift range is 750mm. Safety cut out for motor. Four lockable castors for smooth transportation and stability.
